

About Us

IntelliCo believes in working smarter, not harder.

We are able to offer you the latest technology and turnkey parking solutions tailored to deliver optimal returns for your carpark. The only thing old fashioned about us is our customer service. We provide personalized service and go the extra mile.

We have many years of senior management experience in the parking industry, so please talk to our team about your requirements.

Our Integrated Systems

Introducing vCompliance and our award winning vPermit solutions.

Our cloud based permit and enforcement systems are not only integrated together, but also connect to a range of devices (e.g. parking meters), creating a seamless and efficient solution for you. Importantly both systems are able to be configured to match the look and feel of your corporate brand.

Information is power and our advanced technology uses the vehicle licence plate number as the key piece of data to provide you a single view.

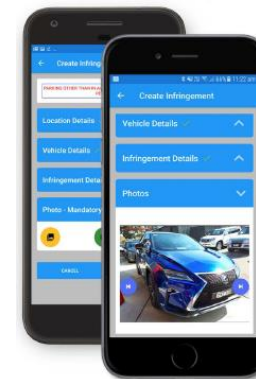

Because every customer's needs can vary, we can offer a customised solution and tailor a solution to meet your specific needs.

vCOMPLIANCE

A feature rich and scalable solution for parking providers that enables for efficient mobile enforcement.

vCompliance is fully integrated with the Metro Pay-by-Plate parking machine (*New Zealand's industry standard machine*) with payment transactions flowing into vCompliance.

vCompliance enables parking enforcement and can also be configured to issue other breach notice types.

Features

- ✓ Android App
- ✓ Bluetooth printer integration
- ✓ Photo management
- ✓ Online payment portal
- ✓ Infringement lifecycle management
- ✓ Intuitive online reporting interface
- ✓ Appeal management

vPERMIT

vPermit's backend processes and management system makes it possible to configure hundreds of different permit types specific to the needs of various customers, such as residents, students, staff, contractors and boat ramps. The permits can be applied by zone, on certain days and between specified hours.

The online verification process restricts the customer access to only those permits specific to them. Once the permit transaction is complete it will automatically flow to vCompliance ready for the enforcement officer.

vPermits eliminates paper permits – now that's smart.

Features

- ✓ Paperless Permits
- ✓ Integrated to vCompliance
- ✓ Integrated Metro parking machines
- ✓ Unlimited Zones, streets & permit types
- ✓ Permit email reminders
- ✓ Online payment portal
